Thanks G-II & Lori!!!

I can't even begin to thank you for getting this monkey...or gorilla...off my back. I would have literally lost years of my life - emotionally and financially - trying to work through this. You and Lori are absolute Saints; truly gifts from God.

I simply cannot thank you enough...

I know we still have to work with USAA on the short fall, but I will savor this moment and celebrate with a good night's sleep. It's been a while brother!!

I'm here in Belgium but connected via phone and internet. You can still reach me on my AZ cell but you'll just have to leave a message for now until I get a Euro-style phone!

I love you guys!
